

FISHING:

To completely remove the odour, NokOut must come into direct contact with the problem

IMPORTANT: Always do a patch test to check for colour fastness. OdorTECH cannot be responsible for any issues of discolouration, fading, etc. May cause fading if exposed to direct sunlight before fully dry.

SHAKE BOTTLE WELL BEFORE USING:

SKIN and HANDS:

- Apply **NokOut** to your hands to remove the scent before handling fishing lures.
- It will also remove the odour of spilled gasoline.
- Use it to remove "fish smell" from your hands.

FISHING and BAIT RELATED ODOURS:

Eliminate fishing related odours from your car, truck, boat, cooler, and clothing before your return home. Remember, NokOut has to come into contact with the odour in order to eliminate it.

Spray **NokOut** directly onto the guts and other parts of the fish before placing in the trash can. No trash can odour means your garage/carport won't stink, or attract unwanted critters to the area.

LAUNDRY:

Use **NokOut** in the laundry to eliminate fishy odours that linger on your clothes.

NokOut works as it dries so let it dry thoroughly!
