

PET SHAMPOO – DIRECTIONS FOR USE

PERFECT FOR DOGS, PUPPIES, CATS, KITTENS and other animals:

NokOut quickly and safely removes offensive smells from your pet such as body odour and residual skunk odour. The unique, deep cleansing formula removes unpleasant odours completely, without the use of added dyes or fragrance.

NokOut's non-irritating, non-drying and hypoallergenic formulation leaves your pet's coat lustrous, soft, and tangle-free.

CREATED SPECIFICALLY FOR ANIMALS WITH ALLERGIES AND SENSITIVE SKIN:

NokOut Pet Shampoo is a deep cleaning pH balanced formulation for all skin types; powerful enough to eliminate the strongest odours but gentle enough for the most delicate breeds. It is an excellent all purpose cleansing and deodorizing shampoo, and is soothing and healing to sensitive skin.

NokOut is ideal for use on any type of skin or coat; normal, dry, damaged, itchy, sensitive, or irritated.

DIRECTIONS:

- **SHAKE BOTTLE WELL BEFORE USING.**
- Wet the animal's coat thoroughly and flush the coat and skin of any odour causing substances.
- The shampoo comes in a concentrated form – start with a “quarter” sized amount. Depending on the size of the animal, you may need more product.
- Starting at the animal's head and neck, work the shampoo into the coat, working backwards towards the tail.
- Rinse thoroughly and repeat if necessary. Use as often as needed.
- Avoid contact with eyes but if any shampoo gets in the eyes, rinse with lots of water.
