

Dear Valued Customers,

Mega-Lab Manufacturing would like to proudly announce the addition of your beloved NokOut and BioCleans to our line-up, effective immediately.

Mega-Lab, headquartered in Ontario, is renowned for its comprehensive lineup of household and industrial cleaning products catering to various markets, including janitorial, industrial supply, foodservice, healthcare, and hospitality. With our strong research and development background, ISO 9001 accreditation and manufacturing expertise, this will undoubtedly bolster Mega-Lab's presence in the household, sports and pet care sectors, complementing our existing brands.

We are thrilled to retain EMebKo's Marc Grisé, who will seamlessly transition to oversee the combined operations under the Mega-Lab umbrella across Canada. Our state-of-the-art facilities in Concord, Ontario, will serve as the backbone of our Canadian operations, ensuring enhanced support for all our distribution partners. Moreover, we are committed to stocking a wide array of Mega-Lab's best-selling products alongside our esteemed NokOut branded line, providing you with access to an expanded product portfolio.

The EMebKo/OdourTECH business unit will continue its operations under the NokOut name, while Mega-Lab will maintain its focus on marketing private label products in Canada. Rest assured, both entities will continue to conduct business as usual, ensuring uninterrupted service and supply to our valued customers.

As we embark on this journey of integration, we pledge to keep you informed every step of the way. In the interim, all existing policies and procedures at EMebKo/OdourTECH will remain unchanged. Should you have any queries or require assistance, please do not hesitate to reach out to [nokout@mega-lab.com](mailto:nokout@mega-lab.com) or [orders@nokout.ca](mailto:orders@nokout.ca) to place your order.

We are immensely grateful for the privilege of serving you over the years, and we are confident that this transition will unlock unparalleled value for your organization, fortifying our collective commitment to delivering excellence in the years ahead.

Warm regards,

Rohana Phillips
